

Input For You launches its first foreign subsidiary in Spain

Brussels, 20th April 2015
Press release

Input For You, the Belgian specialist of scanning and data processing services, launches its first foreign division in Spain. The new office is located in Granada. With this new division Input For You wants to expand its development team and wants therefore to explore sales activities towards the Spanish market. Granada is among others well known for its University which has an outstanding reputation in the ICT domain.

The Spanish operation will be led by Ignacio Zafra Jiménez who has more than 15 years' experience in the IT world. "We believe that the Spanish market has a lot of potential, dixit Stephan Cornelis, General Manager Input For You. Companies, banks or government institutions want to increase efficiency and to optimize their applications and services in an accelerated digital way.

Input For You was founded in 2006 and is headquartered in Brussels. Initially it focused on the supply of scanning and archiving services in the health and insurance market. Since 2010 however, Input For You has expanded its expertise to the processing of daily incoming mail (paper, email and fax). As such, Input For You has a sustainable growth, across business markets like insurance companies, financial institutions, hospitals, leasing companies, social services and utility companies.
